ORDER:

In the letter read above, the Chief Engineer, Minor Irrigation, Hyderabad, has submitted estimate for the work “Repairs to Large Tank near Kalakota Village, Bonakal Mandal, Khammam District”, to accord administrative approval for Rs.87.45 lakhs under Normal State Plan stating that the above tank is having localized ayacut of 1065 acres. Actual ayacut being irrigated is only 790 acres. Thus gap ayacut is 275 acres. The reasons for this gap ayacut is due to dilapidated sluice including its barrel where leakage of water is heavy resulting in wastage of water. The irrigation canals are running in sandy soils in banking reaches and these banks are breaching very frequently and restoration of these banks in crop season is becoming very difficult, as the earth is not available and materials cannot be transported. As per site condition, the channel banks have breaches, rat holes are formed, thus the channel is not to section. Due to this water is entering the fields and causing loss to crops. Hence, the farmers are requesting for permanent CC guide walls. Accordingly, the estimate is prepared for Rs.87.45 lakhs to take up repairs to head works and irrigation channels. Hence, he has requested to accord administrative approval for Rs.87.45 lakhs for the above work under Normal State Plan stating that there is no component to be taken up under MGNREGP.

2. Government, after careful examination of the matter, hereby accord administrative approval for Rs.87.45 Lakhs (Rupees eighty seven lakhs and forty five thousand only) for the work “Repairs to Large Tank near Kalakota Village, Bonakal Mandal, Khammam District”.

3. The expenditure sanctioned in para 2 above, shall be debitable under Head of Account “4702 MH 101 – Surface water – GH 11 Normal State Plan – SH (21) Restoration of MI Tanks – 530 Major Works / 531 Other Expenditure”.

4. This orders issues with the concurrence of Finance (Expr.PW) Department vide their U.O.No.17994 / 641 / A1 / Expr.PW / 12, dated 18.7.2012.
